# ecotile Interlocking floor tiles

Tough enough for industry, smart enough for retail. A quick simple and sustainable flooring solution.

## Description

**ecotile** interlocking floor tiles are a tough, flexible and modern flooring solution. **ecotile** is available in two surface textures and a variety of colours. The tiles are manufactured with precision engineered open joints for maximum security. **ecotile** can usually be installed without the requirement for a damp proof membrane, screed or adhesive, significantly reducing installation time and cost.

## Composition & Manufacture

**ecotile** is injection moulded using compound that has excellent wear characteristics, chemical resistance, long term stability and stable electrical properties.

## An Environmentally Sustainable Solution

**ecotile** is produced from the highest quality raw material. Once the tiles have reached the end of their useful life we will collect the tiles, free of charge, and recycle them to produce the next generation of **ecotile**.

**Time to Forget all your Flooring Worries**

## Applications

**ecotile** 500/7 has been used in industrial and commercial premises across Europe for over 25 years. Designed to cope with heavy vehicle and fork lift truck traffic, ecotile offers good thermal and acoustic insulation and excellent resistance to impact and vibration.

- **Factories & Warehouses**
- **Shops & Offices**
- **Garages & Workshops**
- **Sports & Leisure Facilities**
- **Railway Stations & Airports**
- **Schools & Colleges**
- **Exhibitions & Point of Sale**
- **Prisons, Police & Fire Stations**

## The patented ESD interlocking floor tile option

**ecotile** 500 ESD can be used as your primary ground and is guaranteed to give ESD performance for the life of the tile. The electrostatic dissipative (ESD/EPA) interlocking floor tiles are ideal for use in electronics and telecommunications factories, computer server rooms, production plants such as pharmaceutical, paint, petrochemical and certain food production facilities with risk of dust explosion (sugar, flour dust etc.)

## Composition & Manufacture:

**ecotile** 500 available in 7mm ESD is manufactured from tough PVC compound incorporating millions of tiny stainless steel metal fibres.

Tough enough for industry, smart enough for retail. A quick simple and sustainable flooring solution.

## Strength

Recommended vehicle weight of up 5 tonnes when Laid loose; once glued stress tolerance is even higher.

## Chemical Resistance

Eco tiles are certified chemical resistant to all commonly used industrial chemicals, chemical test chart available.

## Preparation

Just an even hard floor is sufficient, no glue/adhesive, quick and simple to install interlocking pattern.
